

Professional Services

Deploy with speed and confidence

Identity management can be complex. We have a team of identity and access management experts who have helped 1000s of customers and they are ready to take on any business challenge. Deploy with speed and confidence with Okta Professional Services.

10,000+ successful services projects completed and counting...

No one does this kind of work at this speed and does such a good job at informing their customers. No one.

Nate McBride
Vice President, IT AMAG

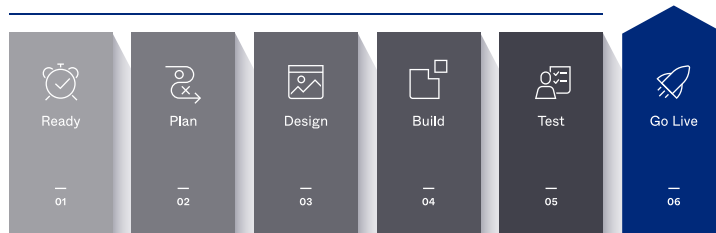

I can't think of many partners that have been there with us every step of the journey in the way that Okta has and continues to be.

Kris Wilson
Sr. Director, T-Mobile

A prescriptive methodology for success

Our standardized processes, methods, and tools deliver reliable, measurable, predictable results to reduce risk and increase speed to market.

Meet the team

Experienced identity and access management professionals you can count on:

- Certified Experts in Okta solutions and third-party integrations - **Okta Certified Professional, Okta Certified Administrator, Okta Certified Developer, and Okta Certified Consultant**
- Extensive backgrounds with legacy identity vendors from around the world
- 8+ years of experience, on average
- PMP- and PRINCE2-certified Project Managers
- Many hold other industry certifications

Accelerated time to value

We've built a reputation for accelerated deployments. Our customers see rapid, valuable returns on their investments at every level of the organization.

Tailored services to meet your needs

We understand that every project is different. Whatever the scope of your deployment, we take the time to understand your objectives, and prescribe and design an approach that meets your requirements. Then, we work with you to make it happen.
