

Okta Education Services

WHO SHOULD ATTEND?

- Administrators
- Technical Project Managers

PREREQUISITES

- Okta Essentials
- Experience integrating Active Directory
- Basic understanding of Identity and Access Management (IAM)

FORMAT

- Instructor-led with hands-on labs
- Duration: 1 day
- Delivered through public class schedule or as a private onsite event

SETUP REQUIREMENTS

- Students use their own computers
- Okta provides access to an Okta org, O365 tenants, and virtual machines to complete hands-on lab activity

Deploy Office 365 with Okta

Okta centralizes the setup and management of the identity lifecycle for Microsoft Office 365 (O365). In this class, you will learn how to configure O365 with Okta in support of four distinct integration scenarios.

You will explore multifactor authentication (MFA) and how it is used to manage client access policies based on group memberships to help you securely administer your O365 user population.

In planning for an O365 deployment, you will define requirements for user mastering and lifecycle management and learn about how Okta manipulates data attributes using Universal Directory.

This hands-on intensive class includes scripted lab practice for integration scenarios as well as exposure to useful reports and common troubleshooting tips to maximize your understanding how Okta and O365 work together

LEARN HOW TO:

- Conduct scoping to understand how best to configure user lifecycle management.
- Learn how federation plays a factor in your user strategy.
- Plan for additional security layers using Okta MFA factors or third-party solutions.
- Compare installation methods to better understand the complexities between Okta and Microsoft.
- Deploy Okta and directory-mastered accounts in distinct provisioning situations with O365.
 - Okta-mastered accounts with Okta provisioning
 - Directory-mastered accounts with Okta provisioning
 - Directory-mastered accounts with Microsoft provisioning
 - Directory-mastered accounts with O365 with Microsoft provisioning and Okta licensing
- Use Okta reports to troubleshoot issues and support your user base.

Deploy Office 365 with Okta

Okta Education Services

COURSE OUTLINE

MODULE 1: Scope User Lifecycle Management

- Plan for federation
- Plan for new accounts
- Configure provisioning and deprovisioning

MODULE 2: Configure Additional Authentication with Okta

- Describe modern authentication
- Describe the Okta MFA Options and policy framework

MODULE 3: Deploy Okta-mastered Accounts with O365 Using Okta Provisioning

- Scope your business needs
- Describe the O365 Cloud-only Solution
- Deploy Okta-mastered accounts with O365 Using Okta Provisioning
- Best practices
- Troubleshoot the deployment

MODULE 4: Deploy Directory-mastered Accounts with O365 Using Okta Provisioning

- Scope your business needs
- Describe the Okta provisioning with Active Directory solution
- Deploy directory-mastered accounts with O365 using Okta provisioning
- Best practices
- Troubleshoot the deployment

MODULE 5: Deploy Directory-mastered Accounts with O365 Using Microsoft Provisioning

- Scope your business needs
- Describe the Microsoft provisioning with Active Directory solution
- Deploy directory-mastered accounts with O365 using Microsoft provisioning
- Best practices
- Troubleshoot the deployment

MODULE 6: Deploy Directory-mastered Accounts with O365 Using Microsoft Provisioning with Okta Licensing

- Scope your business needs
- Describe the Microsoft provisioning with Active Directory solution
- Deploy directory-mastered accounts with O365 using Microsoft provisioning
- Best practices
- Troubleshoot the deployment

MODULE 7: Describe Okta Reporting

- Review available Okta reports
- Extract information from Okta reports

SUMMARY

- Common Support Cases
- Microsoft Support and Recovery Assistant
- Microsoft Service Health
- Common PowerShell Cmdlets
- Course Summary
- Learning Paths

ABOUT OKTA

Okta is the foundation for secure connections between people and technology. By harnessing the power of the cloud, Okta allows people to access applications on any device at any time, while still enforcing strong security protections. It integrates directly with an organization's existing directories and identity systems, as well as 4,000+ applications. Because Okta runs on an integrated platform, organizations can implement the service quickly at large scale and low total cost.

More than 2,000 customers, including Adobe, Allergan, Chiquita, LinkedIn, MGM Resorts International, and Western Union, trust Okta to help their organizations work faster, boost revenue, and stay secure.
