This document contains third party open source licenses and notices for the Okta Auth0 Lab FGA Go SDK. Certain licenses and notices may appear in other parts of the product in accordance with the applicable license requirements. The Okta product that this document references does not necessarily use all the open source software packages referred to below and may also only use portions of a given package. In addition, Okta makes available to customers certain complementary, unmodified open source software packages that facilitate customers' use of the Okta Auth0 Lab FGA Go SDK product.
