

Okta: Powering higher education with world-class Identity

Streamline IT infrastructure and enhance user experience

Higher education institutions shoulder the crucial responsibility of educating and nurturing our future leaders. This mission requires technology that safely connects and protects students, faculty, staff, and alumni. That's why Okta offers world-class Identity solutions—tailored for colleges and universities.

The Okta Identity Cloud connects every user to any technology. It streamlines the management of cloud apps, custom apps, mobile apps, on-premises apps, laptops, desktops, and mobile devices. From Single Sign-On (SSO) and Privileged Access Management (PAM) to Advanced Server Access (ASA) including data governance, the Okta Identity Cloud supports the modernization of IT infrastructure, protects against data breaches, and reduces friction throughout institutions. In short, it's an Identity solution flexible enough to support all aspects of higher education.

Solutions for on-campus and remote student, staff, and alumni identities

Leverage Okta's out-of-the-box functionality to ensure seamless access for the extended ecosystem of staff and partners. Alternatively, for a customized experience, use Okta's user management, authentication, and authorization APIs in dedicated student and alumni-facing applications.

Modernize higher education IT

Outdated legacy technology, with high maintenance costs and growing cybersecurity risks, is due for an upgrade. Discover how Okta can help modernize your institution's IT.

Automate the student lifecycle with workflows

Higher education institutions manage a complex user base—students, faculty, staff, alumni, and more—granting access to hundreds of applications across regional education centers. Learn how Okta can automate user onboarding and offboarding with Workflows and Lifecycle Management, ensuring smooth transitions and effective management across your institution's user base.

Special pricing for higher education

Across its product suite of workforce and student/alumni Identity solutions, Okta offers special pricing for higher education institutions. To learn more, contact our team at sales@okta.com.

Protect and enable students, faculty, staff, and alumni

The wide adoption of mobile and cloud technologies means a network perimeter-centric view of security is no longer enough. Explore how Okta can securely enable access for all your institution's users, regardless of location, device, or network, while mitigating common Identity attacks such as phishing.

Multi-Factor Authentication

Ensure secure user access to apps, systems, and devices with a robust policy framework, a comprehensive set of modern second-verification factors, and adaptive, risk-based authentication.

Universal Directory

Deploy a flexible, cloud-based user store to customize, organize, and manage any set of user attributes. Universal Directory also allows you to securely master in Okta or from any number of sources, including Active Directory, human resources systems, or other databases.

Build secure, seamless student experiences

Whether developing a new student portal or unifying an array of existing services, Okta ensures web and mobile access is secure, compliant, and frictionless. Okta also liberates your users from the tyranny of multiple passwords. Using a single set of credentials, users can access enterprise apps in the cloud, on-prem, and on mobile devices.

Data governance

Provide data security, privacy, and compliance across your institution with Okta's data governance solutions. Give any user access to necessary resources at the correct times and according to your permissions.

Privileged access

Manage, control, and monitor access to critical assets with Okta's privileged access solutions, reducing the risk of security breaches, and ensuring the right people have access to appropriate information.
