

Okta

Tap and Go solution for the NHS

The Okta Single Sign-on (SSO) solution is a true cloud deployment which is designed for the entire hospital, from the emergency department to the office floor. It works on desktops, in the cloud, and with on-premise applications. But it doesn't end there! With Okta Universal Directory, you can see and manage all your employee profiles and attributes in one place through integrations with Active Directory (AD) or The Electronic Staff Record (ESR).

Simplifying Clinical Workflows with Touch-less Access:

- Okta provide clinicians with secure access across workstations
- Tap and Go solution enables fast desktop login with proximity cards or biometrics
- Session persistence eliminates the need for clinicians to manually enter credentials
- Swift access to clinical applications, fast user switching, and touchless logins in VDI environments
- Fully compliant with GDPR and data protection standards

Solution Features:

- Unlimited directory integration to AD and/or LDAP
- Enhanced badge access security with PIN or other Okta authentication factors
- Self-service badge and biometric enrolment without IT assistance
- Centralised web-based management console for IT and help desk
- Configurable tap behaviour, block compromised cards, and reset enrolment
- Audit reports of user activities
- Privacy Shield when a clinician walks away from their workstation to protect patient information
- Unlimited creation and storage of customer user attributes
- End user AD/LDAP Self-Service Password Reset

Key Benefits:

- Is fully compatible with existing RFID card readers
- Unified Identity Access Management including Privileged Access Management and Governance improve security posture and increase efficiency
- Multi-factor Authentication (MFA) and Tap and Go provide more flexible, convenient and secure authentication options
- Workflow management simplifies complex group memberships and trust execution
- Clinical applications support regulatory compliance and streamline workflows
- Shared kiosk/shared workstation
- Handle mergers efficiently by consolidating identities into Okta
- A future-proofed solution that can be expanded to automate the onboarding/offboarding process
