Hands On Labs							
Technical	8/29/17 10:45am-12:30pm	Automate Onboarding to Ensure First Day Success	Beginner	Harness the power of Group Rules and the End User Adoption Toolkit to ensure First Day Success. Focus on how to streamline the onboarding process with application access while preparing your users for first day success and self service. This session is ideal for new administrators and those looking to optimizethe user experience.	Included in Conference	48 total seats available	At the session. First-come, first-serve
Technical	8/29/2017 10:45am-12:30pm	Troubleshooting Okta: Common Customer Questions	Intermediate	Customer Success also means End User Success. Okta Administrators need to be ready to jump into action when trouble arises. By using real life support cases, this lab shows you how to approach common troubleshooting questions and scenarios using the proper techniques and tools—including Syslog 2.0. This session is ideal for administrators implementing popular features such as AD Agents and Single Sign-On to SAML applications.	Included in Conference	48 total seats available	At the session. First-come, first-serve
Technical	8/29/2017 10:45am-12:30pm	Automate Lifecycle Management with SCIM	Intermediate - Developer	Learn how to include custom internal applications into your Okta Lifecycle Management strategy. In this hands-on training session, the instructor will lead you through some light coding exercises to implement a SCIM server and integrate it with Okta using the SCIM protocol. This session is developer-oriented, although the core concepts are useful to anyone involved with a custom lifecycle management project.	Included in Conference	48 total seats available	At the session. First-come, first-serve
Technical	8/29/2017 1:30pm-3:15pm	Strengthen Your Security Posture with Okta	Intermediate	Explore how to implement Okta's policy framework to secure your Okta org. As part of the policy scoping, you will learn how to address access requirements around what's important to your company. Using Syslog 2.0 you can gain insight into user and device access.	Included in Conference	48 total seats available	At the session. First-come, first-serve
Technical	8/29/2017 1:30-3:15pm	Enable and Audit Application Self Service	Intermediate	Many customers report that their IT and helpdesk teams are getting swamped with fielding requests. Learn what we can do to solve this problem. Request Approval Workflow can relieve the bottleneck and enable users to request application and route their request to the proper person or group. Using Okta's new Application Access Audit, admins can audit their application assignments to keep everything in check.	Included in Conference	48 total seats available	At the session. First-come, first-serve
