

Platinum SmartStart: Let our experts guide your implementation

Plan and Deploy the Okta Identity and Access Management service

How Okta can help

We've designed Okta to be easy to deploy. But not all implementations are created equal. That's why we are here to help if you need us.

Our goal is to connect your team to the technology they need to do their best work as quickly and as smoothly as possible. With the SmartStart Platinum program,

someone from Okta will be at your side during planning and deployment. We will work closely with you on key tasks such as AD/LAP integration, application configurations, user deployments, and new application integrations. A SmartStart Platinum program typically up to 8 calendar weeks.

More details below:

	Details	Included in Edition
Planning	We'll help you set project governance and key milestones and develop deployment plans	
	We'll lead weekly project meetings	Up to 8 weeks
	We'll help design your user deployment plan	2000 -3,999 users
	We'll help design your app rollout plan	5 apps or O365*
	We'll help design your domain deployment plan	Multiple domains
Deployment	We'll set up your Okta instance, AD/LDAP integration, Okta Application Network (OAN) configuration(s) and user deployment.	
	We'll deploy user management/provisioning	Up to 3 apps
	We'll set up MFA	√
	We'll handle mobile configuration	√

About Okta

Okta is the foundation for secure connections between people and technology. By harnessing the power of the cloud, Okta allows people to access applications on any device at any time, while still enforcing strong security protections. It integrates directly with an organization's existing directories and identity systems, as well as 4,000+ applications.

Because Okta runs on an integrated platform, organizations can implement the service quickly at large scale and low total cost.

Thousands of customers, including Adobe, Allergan, Chiquita, LinkedIn and Western Union, trust Okta to help their organizations work faster, boost revenue, and stay secure.
