HIGHER EDUCATION IAM LANDSCAPE

JUNE 2017

PULSE Q&A

SURVEY - COMPANY SIZE

The complex web of users and apps at a large scale that makes up the higher education IT ecosystem makes identity and access management for institutions challenging, costly and time-consuming. To better understand the unique IAM landscape of these organizations, we set out to learn more about the priorities, initiatives and challenges that are top-of-mind for those charged with managing the myriad of identities within their higher education institutions.

These are their stories.

- None of the above

ABOUT

ABOUT OKTA

Okta is the market leader in Identity and Access Management. Okta's service was born and built in the cloud, which enables Okta to connect to everything, innovate faster and scale to meet the needs of any size organization. Okta has built and maintains a very broad and deep network of application integrations. And, Okta is application agnostic, meaning it isn't tethered to any specific apps. Instead, Okta is free to provide the same level of care to each and every app in the Okta Identity Cloud. Okta's service is inherently secure and reliable, and it has achieved the highest certifications for cloud security.

PULSE

ABOUT PULSE Q&A

Pulse delivers the latest business trends and insights via bite-sized Q&A. Built for both professionals and businesses, it is the fastest way to ask and answer questions. The platform enables users to create questions and serve it to peers, customers, or prospects, and collect data with unparalleled ease. Pulse's AI engine then automatically delivers a smart report distilling key insights for decision making. Pulse's chatbot and webapp leverage the Google and Facebook ecosystem to reach, engage, and inform the world's professionals.
