

Okta Cloud Connect: A Free, Easy Way to Set Up a Webex Proof of Concept

Automatically connect to AD for SSO.

Automatically provision, update, and deprovision accounts.

For a proof of concept (PoC) to be successful, users must easily access the applications to test them out. With Okta Cloud Connect (OCC) for Webex Teams or Webex Meetings, end users get easy, Single Sign-On (SSO) using existing corporate credentials—no multiple passwords to worry about.

IT managers and sales engineers can automatically provision, update, and deprovision accounts without mirroring changes in Active Directory/LDAP. No profile sync challenges; no password reset fiascos.

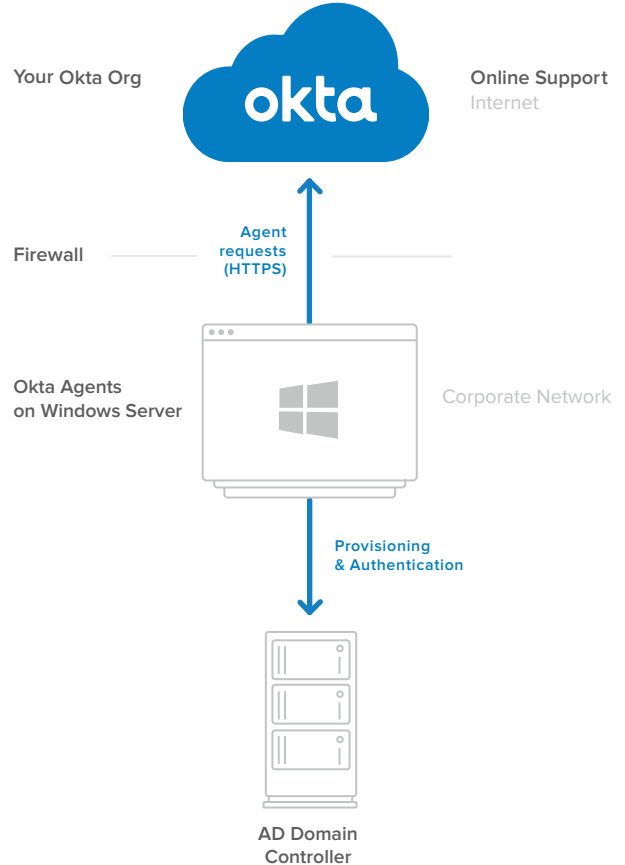

Okta Cloud Connect is free for Webex Teams and Meetings, and provides:

- Scalability: OCC powered PoCs with thousands of users
- Easy set-up (under 30 min)
- Perpetual license & unlimited users
- Directory Integration (AD / LDAP)
- Single Sign-On
- Provisioning

About Okta

Okta is the leading provider of identity for the enterprise. The Okta Identity Cloud connects and protects employees of many of the world's largest enterprises. It also securely connects enterprises to their partners, suppliers and customers. With deep integrations to over 5,000 apps, the Okta Identity Cloud enables simple and secure access from any device. Thousands of customers, including Experian, 20th Century Fox, LinkedIn, Flex, News Corp, Dish Networks and Adobe trust Okta to work faster, boost revenue and stay secure. Okta helps customers fulfill their missions faster by making it safe and easy to use the technologies they need to do their most significant work.

How to Set Up OCC

Setting up Okta Cloud Connect is an easy three-step process:

1. Download the Okta agent and install it on any Windows Server that has access to a Domain Controller. You don't have to configure your network or firewall.
2. Configure Single Sign-On and provisioning settings for your cloud app.
3. Assign the app to a set of your users, and set the rules for future assignments.

That's all it takes to get your Webex PoC going. OCC is easy to set up, secure, lets users access the PoC without reauthenticating, and is free for an unlimited number of users.
